DETAILED ACTION

Allowable Subject Matter

2. Claims 48-57 are allowed over the prior art of record.

3. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 48-52, no prior art of record teach or fairly suggest a tissue marker delivery device including a distally extending tube; a rod located within the tube lumen; an intermediate member separating the rod from a marker disposed in a marker seat in the distal end of the tube; and a deployment lock having a portion removably attached to the tube to engage a portion of the rod in order to prevent distal movement of the rod such that the rod is prevented from prematurely deploying the marker.

Regarding claims 53-57, no prior art of record teach or fairly suggest a method for marking a biopsy cavity, as claimed by Applicant, where a deployment lock having a portion removably attached to the tube such that the deployment lock contacts the rod to prevent the rod from moving is unlocked prior to the step of actuating the rod.
